OUR FOUNDATION

WealthCoin is built on timeless Kingdom principles and modern blockchain technology to create a sustainable, transparent, and faith-driven ecosystem.

02. KEY PILLARS

SCHEDULED BURNS

Regular, pre-determined token burns reduce supply over time, increasing scarcity and supporting long-term value for faithful stewards.

TEAM & LP LOCKS

Team tokens are locked with long-term vesting. Liquidity Provider (LP) tokens are locked to ensure stability, transparency, and trust.

CHRISTIAN COMMUNITY

STAKING REWARDS

Stake your WTC to earn passive income while supporting the ecosystem. The longer you stake, the more you grow.

04. PUBLIC SALE & SUPPLY GOVERNANCE

7% PRESALE ALLOCATION

Of the 30% Public Sale allocation, 7% (21,000,000 WTC) is reserved for the presale campaign.

COMMUNITY GOVERNANCE

All major supply decisions are placed in the hands of the community. Token holders will vote on proposals, ensuring a fair and secure future.

NO AUTOMATIC BURN

The remaining 93% of the Public Sale allocation will not be burned unless the community votes to do so through governance.

TREASURY RESERVES

Unused tokens remain in the treasury – controlled reserves to support ecosystem growth, liquidity, and Kingdom impact.
